Reinvestment of income distributions during the period	$	230

Note 1 – Organization:

[redacted] (the “Fund”) was formed as a Cayman Islands exempted limited partnership on June 27, 2022. The Fund commenced operations on March 24, 2022 and invests all of its assets in Duration Transportation Infrastructure Capital Partners (Parallel 2), L.P. (the “Master Fund”) in exchange for a proportionate interest in the net assets of the Master Fund. The Fund registered with the Cayman Islands Monetary Authority following the enaction of the Private Funds Act. As of June 30, 2025, the Fund's investment in the Master Fund amounted to 82.9% of the Master Fund's net assets. As of June 30, 2025, 99.0% of committed capital in the amount of $163,548 has been contributed to the Master Fund.

On June 28, 2024, the Transportation Infrastructure Team spun out of Oaktree Capital Management, L.P. (“Oaktree”), a Delaware limited partnership. Effective July 1, 2024, the Transportation Infrastructure Team became employees of a newly formed asset manager, [redacted] (“Duration”), a Delaware limited liability company. In connection with the spinout, management and control of other funds previously managed by the Transportation Infrastructure Team in their former capacity as Oaktree personnel (including the Fund and the Master Fund) was also transferred from Oaktree to Duration, and such funds were renamed to replace references to “Oaktree” with references to “Duration,” as applicable.

The Fund’s Amended and Restated Limited Partnership Agreement, dated June 28, 2024 (as it may be further amended or restated from time to time thereafter, the “Agreement”), was entered into among Oaktree Transportation Infrastructure Capital Partners GP, L.P., a Delaware limited partnership, in its capacity as the prior general partner of such Fund (the "Prior General Partner"), Duration Transportation Infrastructure Capital Partners GP LLC, a Delaware limited liability company, in its capacity as the general partner of the Fund (the "General Partner"), and the Limited Partners of the Fund. In accordance with that certain Assignment and Assumption Agreement, dated June 28, 2024, the Prior General Partner assigned its entire general partner interest in the Fund to the General Partner, and immediately thereafter withdrew from the Fund as the general partner. The General Partner of the Fund makes all decisions and has exclusive responsibility for management of the Fund.

The primary objective of the Master Fund is to realize substantial capital appreciation without subjecting principal to undue risk. The Master Fund will seek to achieve this objective primarily by making investments in corporations, partnerships, limited liability companies and other similar entities that focus primarily on the transportation infrastructure industry. Within the transportation infrastructure industry, the Master Fund will primarily focus on hard assets, operating companies, and other permitted investments, such as airports, railroads, toll roads, ports, parking and other transportation assets in the air, land and sea transportation sectors.

The financial statements of the Master Fund should be read in conjunction with the Fund's financial statements.

Each entity invested in the Master Fund is invested substantially on the same terms and conditions and is allocated a proportionate share of the Master Fund's gains, losses and expenses based on its respective interest in the Master Fund.

Note 1 – Organization:

Duration Transportation Infrastructure Capital Partners, L.P. (the "Main Fund"), Duration Transportation Infrastructure Capital Partners (Parallel), L.P. (the "Parallel Fund"), and Duration Transportation Infrastructure Capital Partners (Parallel 2), L.P. (the "Parallel 2 Fund", and together with the Parallel Fund, the "Parallel Funds") (altogether, the Main Fund and the Parallel Funds, the "Funds") are Delaware limited partnerships. The Main Fund and Parallel Fund were formed on March 4, 2022, and Parallel 2 Fund was formed on May 12, 2022. The Funds commenced operations on March 24, 2022. The Parallel Fund serves as the investment vehicle (or "Master Fund") for Duration Transportation Infrastructure Capital Partners Feeder (Cayman), L.P. (the "Feeder Fund") and Parallel 2 Fund serves as the investment vehicle (or "Master 2 Fund") for [redacted] (the "Feeder 2 Fund"). As of June 30, 2025, the Feeder Fund represents approximately 64.5% of net assets of the Master Fund and the Feeder 2 Fund represents approximately 82.9% of net assets of the Master 2 Fund.

On June 28, 2024, the Transportation Infrastructure Team spun out of Oaktree Capital Management, L.P. ("Oaktree"), a Delaware limited partnership. Effective July 1, 2024, the Transportation Infrastructure Team became employees of a newly formed asset manager, [redacted] ("Duration"), a Delaware limited liability company. In connection with the spinout, management and control of other funds previously managed by the Transportation Infrastructure Team in their former capacity as Oaktree personnel (including the Funds, the Feeder Fund and the Feeder 2 Fund) was also transferred from Oaktree to Duration, and such funds were renamed to replace references to "Oaktree" with references to "Duration" as applicable.

A primary objective of the Funds is to realize substantial capital appreciation without subjecting principal to undue risk. The Funds will seek to achieve this objective primarily by making investments in corporations, partnerships, limited liability companies and other similar entities companies that focus primarily on the transportation infrastructure industry. Within the transportation infrastructure industry, the Funds will primarily focus on hard assets, operating companies, and other permitted investments, such as airports, railroads, toll roads, ports, parking and other transportation assets in the air, land and sea transportation sectors. Without the consent of the Investors Committee, no more than the greater of $600,000 or 20% of Net Asset Value may be invested, based on cost, in securities issued by, or with respect to, any one issuer or consolidated group of issuers or no more than the greater of $450,000 or 15% of Net Asset Value may be invested in securities or obligations of non-North American entities.

The Main Fund, Parallel Fund and Parallel 2 Fund Amended and Restated Limited Partnership Agreements, dated June 28, 2024 (as they may be further amended or restated from time to time thereafter, the "Agreements"), were entered into among Oaktree Transportation Infrastructure Capital Partners GP, L.P., a Delaware limited partnership, in its capacity as the prior general partner of such Funds (the "Prior General Partner"), Duration Transportation Infrastructure Capital Partners GP LLC, a Delaware limited liability company, in its capacity as the general partner of the Funds (the "General Partner"), and the limited partners of the Funds. In accordance with that certain Assignment and Assumption Agreement, dated June 28, 2024, the Prior General Partner assigned its entire general partner interest in the Funds to the General Partner, and immediately thereafter withdrew from the Funds as the general partner. Immediately prior to the effectiveness of the Assignment and Assumption Agreement, the Prior General Partner contributed, assigned, transferred and conveyed its existing commitment to the Funds and all of its interests represented by its entitlement to receive Incentive Allocations from the Funds (the "Oaktree GP Economic Interests") to Duration TICP Holdings LP, a Delaware limited partnership (the "Special Limited Partner").

Note 1 – Organization *(continued)*:

In connection with the spinout, and effective as of June 28, 2024, (a) the Funds terminated their respective Management Agreements with Oaktree, and (b) immediately thereafter appointed Duration as their Investment Manager pursuant to new management agreements, dated June 28, 2024 (the "Management Agreements"), with the result that, following the consummation of the spinout, Oaktree no longer served as the Investment Manager of the Funds and Duration was designated as the sole Investment Manager of the Funds. Subject to the terms of the Agreements and the Management Agreements, the Investment Manager has discretionary authority to make decisions with respect to the investments of the Funds and to manage the operations of the Funds.

From time to time the General Partner may determine that, for legal, tax, regulatory or other considerations, an investment shall be made through an alternative investment vehicle ("AIV") or an entity taxable as a corporation for U.S. federal income tax purposes ("Blocker Corporation"). Each AIV and Blocker Corporation will be managed by Duration or an affiliate and be governed by organizational documents containing provisions substantially similar to those of the Funds.

The Funds may make investments through one or more holding companies that are co-owned by the Funds in proportion to the total capital commitments made by the limited partners to the Funds. The Funds may also make investments through one or more holding companies that are co-owned by the Funds and other funds managed by the Investment Manager. The profits and losses associated with such investments are reflected in the Combined Statement of Operations based on the respective characteristic of the income or expense from the underlying investments.

The General Partner shall structure the acquisition of each Portfolio Investment that is an equity investment in an Operating Partnership such that the interests in such Portfolio Investment are held through a Blocker Corporation. The interests of the Blocker Corporation in any such Portfolio Investment shall be held (directly or indirectly) through an intermediate entity that is taxable as a partnership for U.S. federal income tax purposes (an "Intermediate Entity").

As of June 30, 2025, the Limited Partners of the Funds committed total capital of $913,758, of which $863,302, or approximately 94.5% of committed capital, had been drawn. The Special Limited Partner committed total capital of $11,335, of which $11,335, or 100.0% of committed capital, had been drawn.

The Funds do not have a defined term but will be dissolved upon the occurrence of certain events specified in the Agreements.

Note 2 – Commitments and Contingencies:

In the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.

The Funds may be a party to certain credit agreements, providing for the issuance of letters of credit and revolving loans, which may require the Funds to extend additional loans to investee companies. The Funds use the same investment criteria in making these unrecorded commitments as they do for investments, which are included in the Combined Statement of Assets and Liabilities. The unfunded liability associated with these credit agreements is equal to the amount by which the contractual loan commitment exceeds the sum of the amount of funded debt and cash held in escrow, if any. As of June 30, 2025, the Funds had no outstanding debt commitments.

As of June 30, 2025, the Funds had $75,091 potential unfunded equity investment commitments.

Note 3 – Revolving Credit Facility:

On July 31, 2024, the Funds amended and restated the revolving credit agreement, reducing the commitment of the subscription line to $75,000. The amended subscription line carries an annual commitment fee of 0.40% on unfunded commitments, payable in arrears on the first business day of each calendar month for the preceding calendar month. The subscription line bears interest, at the Fund's election, at an annual rate of the daily simple RFR plus 2.30%. The maturity date of the subscription line is January 31, 2025.

On February 5, 2025, the Funds entered into a Revolving Credit Agreement. The facility provides for a revolving line of credit up to $25,000 and has an annual commitment fee on unfunded commitments of 0.15% per annum, due on each anniversary of the Closing Date. The subscription line bears interest, subject to a floor of 5.25%, equal to (a) Prime rate minus 1.00% or (b) SOFR plus 2.20%. The Stated Maturity Date of the subscription line is February 4, 2026. As of June 30, 2025, the Funds had $24,000 outstanding borrowings under the facility. As of June 30, 2025, there were no outstanding standby letters of credit issued. Additionally, for six months ended June 30, 2025, $15 of interest expense has been paid.

Under the subscription line, the Funds are subject to various affirmative and negative covenants and reporting obligations, including restrictions on additional indebtedness, liens, margin stock, affiliate transactions, dividends and distributions, release on capital commitments and portfolio asset dispositions. In addition, the Funds must maintain compliance with certain financial covenants at all times. As of June 30, 2025, the Funds are in compliance with the financial covenants. The carrying value of the subscription line approximates fair value due to the supporting collateral; additionally, the General Partner has analyzed and concluded that subscription line of this nature originated at June 30, 2025 would have similar terms.
