Increase in deferred tax liability	1,609,335	1,263,730
(Decrease)/Increase in due to Manager	(259,320)	172,428
(Decrease)/Increase in other liabilities	(531,370)	10,178
Net cash used in operating activities	(72,168,138)	(49,036,128)
Cash flows from financing activities:		
Proceeds from line of credit	65,000,000	55,252,759
Line of credit repayments	(57,126,242)	(83,222,858)
Contributions	74,206,999	80,337,865
Distributions	(76,975,559)	-
Net cash provided by financing activities	5,105,198	52,367,766
Net change in cash	(67,062,940)	3,331,638
Cash, beginning of period	77,248,414	1,813,862
Cash, end of period	$ 10,185,474	$ 5,145,500
Supplemental disclosures:		
Cash paid for interest during the period	$ 619,501	$ 1,922,477
Accrued investment obligation	$ 15,000,000	$ -

See accompanying notes to combined financial statements.

(1) Organization

[redacted] (Fund-M), [redacted] (Fund-A), [redacted] (Fund-B), and [redacted] (Fund-C) collectively referred to as Fund IV (the Fund), are all Delaware limited partnerships organized on March 1, 2019, in accordance with the terms of their respective limited partnership agreements (the Partnership Agreements). The Fund was formed for the purpose of raising capital from its partners to create long-term capital appreciation by investing in equity instruments issued by portfolio companies (Portfolio Company; Portfolio Companies) which primarily operate high growth, technology enabled companies.

The Fund will dissolve in accordance with the provisions of the Partnership Agreements unless terminated earlier or extended as provided for in the Partnership Agreements. The Fund has a stated term of March 1, 2030 with the ability to extend for two 12-month periods with the consent of the Advisory Board.

[redacted] General Partner IV, L.P. (the General Partner) is a Delaware limited partnership that serves as the general partner of the Fund. The limited partnership interests are held by various entities including institutional investors (the Limited Partners). [redacted] Investors IV, L.P. (the Special Limited Partner), [redacted] General Partner IV-B, L.P. (Special General Partner) and [redacted] Management IV, L.P. (Management IV), affiliates of the General Partner, also hold limited partnership interests (collectively, the Inverness Limited Partners). The General Partner and Limited Partners are collectively referred to as the Partners. The Inverness Limited Partners will receive distributions and allocations of income under the terms of the Partnership Agreements as further discussed in notes 2 and 6.

The Fund held its final closing on March 1, 2019 with aggregate commitments of $414,720,000. The Fund is projected to make investments into Portfolio Companies over the Investment Period which has a stated termination date of March 1, 2025.

The Fund has engaged Management IV, a subsidiary of [redacted], Inc., (collectively, the Manager) to provide investment and advisory services. [redacted], Inc. and its affiliates also provide investment management and advisory services to IGI I Annex Fund, L.P., [redacted] II, L.P., [redacted] III, L.P., [redacted] V, L.P., [redacted], L.P. and other affiliated co-investment and alternative investment vehicle entities. The Manager is a Registered Investment Adviser in accordance with the Securities and Exchange Commission's Investment Advisers Act of 1940.

Fund-A was formed to provide a vehicle to allow for tax-exempt and non-U.S. investors to participate in the investment of Portfolio Companies that are structured as pass through entities for federal tax reporting purposes. When the Fund seeks to invest in such a company, Fund-A will form an investment specific blocker corporation which will in turn invest in [redacted] Pooling, L.P. (the Pooling Partnership). The Pooling Partnership invests in the Portfolio Companies and was formed in accordance with the terms of its limited partnership agreement (the Pooling Partnership Agreement).

On July 25, 2022, the Partners approved an amendment to the Partnership Agreements to permit a warehousing arrangement in which the Fund would hold certain investments with the intent to transfer a portion of such investment to the [redacted], LP (Green Light Fund) which held its first closing on March 13, 2023. The terms of this amendment stated that the Fund would retain 50% of the total investment in [redacted] and [redacted], and transfer a 50% interest to the Green Light

(continued)

Fund. Terms of the amendment stated that for transfers occurring prior to July 25, 2023, the investments will be transferred from the Fund to the Green Light Fund at cost plus 8%; if the transfers occur post July 25, 2023, the investments will be transferred at fair value. On March 27, 2023 and July 14, 2023, respectively, 50% of the Fund's investment in [redacted] and [redacted] was transferred to the Green Light Fund at cost plus 8% and the Fund recognized an aggregate realized gain of $2,987,522.

(2) Summary of Significant Accounting Policies

a. Basis of Accounting

The combined financial statements have been prepared in accordance with U.S generally accepted accounting principles. The General Partner has reviewed Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, *Financial Services – Investment Companies* (ASC 946), and concluded that the Fund meets the criteria of an "investment company," and therefore, the Fund prepares its financial statements in accordance with investment company accounting as outlined in ASC 946.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates.

c. Cash

The Fund maintains its cash and cash equivalents in accounts with a major U.S. financial institution, which also sponsors the Funds' line of credit facility, and deposits at these institutions can, from time to time, exceed the FDIC insured limit of $250,000. Market conditions can impact the viability of financial institutions which can result in counterparty risk with banking relationships. During May 2023, the Fund expanded its banking relationships to include deposit accounts with a money center bank.

d. Valuation of Investments

The Fund's investment in a privately held company is carried at its estimated fair value. Fair value is defined as the price that the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market. Fair value measurements are determined within a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Inputs refers broadly to the assumptions market participants would use in pricing an investment based on data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's own assessment about the assumptions market participants would use in pricing an investment. The standard describes three levels of inputs that may be used to measure fair value as follows:

Level 1: Unadjusted quoted prices for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date. This level of fair value hierarchy provides the most reliable evidence of fair value and is used to measure fair value whenever available. The Fund's investments are not determined using Level 1 inputs.

Level 2: Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. The Fund's investments are not determined using Level 2 inputs.

Level 3: Model-derived valuations in which one or more significant inputs or significant value drivers are unobservable.

As it relates to investments for which there is no public market, there is no single standard for determining the estimated fair value. In most cases, fair value for such investments is best expressed as a range of values derived utilizing different methodologies from which a single estimate may then be determined. Consequently, fair value for each investment will be derived using a combination of valuation methodologies that, in the General Partner's judgment, are most relevant to such investment, including, without limitation, being based on one or more of the following: (i) the enterprise value at which a portfolio company could be sold in a public offering utilizing trailing or forward sales and/or EBITDA multiple ranges of comparable publicly traded companies, (ii) the enterprise value at which a portfolio company could be sold in a private sale to a strategic or financial buyer based on historical comparable transaction sales and/or EBITDA multiple ranges, (iii) a discounted cash flow analysis, and (iv) the EBITDA and/or sales multiples pursuant to which the investment was made in the company. The Fund's initial investment represents the fair value on the date of acquisition which typically represents the fair value of the investment in the subsequent short-term period. Consideration will also be given to such factors as historical and projected financial data for the portfolio company, the strengths and weaknesses of the portfolio company, industry information, technological advantages, general economic and market information, and other factors determined by the General Partner to be relevant.

The General Partner will value the Fund's investments generally using the valuation methodologies, inputs, and assumptions that are consistent regardless of the types of securities held as one whole unit of account (rather than separately valuing each individual component security that the Fund may hold in a Portfolio Company).

Based upon the nature of the Fund's investment, the General Partner's valuation methodology to estimate the fair value of these investments is expected to be classified as a Level 3 fair value measurement given unobservable inputs are the most significant assumptions utilized in developing these values. Because of the inherent uncertainty of such valuations, the estimated value may differ significantly from the value that would have been used had a ready market for the investment existed and/or the Fund liquidated their positions, and the differences could be material. Any appreciation or depreciation of an investment's value is reported as an unrealized gain or loss in the accompanying combined statement of operations.

e. Income Taxes

As discussed in footnote 1, the combined financial statements include the activities of Fund-M, Fund-B, and Fund-C which are all organized as partnerships for federal income tax purposes. Accordingly, these entities do not account for any federal or state income taxes since the Partners report their distributive share of the results of operations in their respective tax returns. These tax returns and the amount of allocable Partnership profits and losses are subject to examination by federal and state taxing authorities. If such examinations resulted in changes to the Fund's profits or losses, then the tax liability of the Partners would be changed accordingly.

The combined financial statements also include the activities of [redacted] ("Fund-A") which was formed to provide for certain investment structuring for tax-exempt and non-U.S. investors when Portfolio Companies are formed as an LLC pass through entity for federal tax reporting purposes which includes the formation of underlying blocker corporations. The accompanying Combined Statement of Assets, Liabilities, and Partner's Capital as of June 30, 2025 includes a deferred tax liability which is solely reported by IGI IV-A (and its blocker subsidiaries) primarily associated with the accounting for the difference in the book and tax basis of its investments. Such deferred tax liability does not impact the partner's capital of Fund-M, Fund-B, or Fund-C.

Fund-A activities include investments in CMD Holdco (IGI IV-A), Inc., Concord Holdco (IGI IV-A), Inc., CustomAg Holdco (IGI IV-A), Inc., [redacted] (IGI IV-A), Inc., [redacted] Holdco (IGI IV-A), Inc., [redacted] Holdco (IGI IV-A), Inc, and [redacted] Holdco (IGI IV-A). Accounting for these blocker corporations includes accounting for deferred tax assets and liabilities that are established for the expected future tax consequences of events that have been included in the financial statements or tax returns using enacted tax rates in effect for the years in which the differences are expected to reverse. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The General Partner evaluates the Fund's tax positions to determine if they meet the minimum threshold for financial statement recognition of the benefits of uncertain tax positions taken or expected to be taken in filing tax returns. Tax benefits of an uncertain tax position are recognized only when the position is "more likely than not" to be sustained assuming examination by taxing authorities. The General Partner has evaluated the Fund's tax positions taken or expected to be taken and has concluded that no provision for income tax is required in the Fund's combined financial statements. The Fund is not subject to examination by taxing authorities for years before 2019. In addition, the Fund does not expect the total amount of unrecognized tax benefits to significantly change in the next twelve months.

The Bipartisan Budget Act of 2015 (The Act) provides that any tax adjustments resulting from partnership audits will generally be determined, and any resulting tax, interest, and penalties collected, at the partnership level for tax years beginning after December 31, 2017. The Act allows a partnership to elect to apply these provisions to any return of the partnership filed for partnership taxable years beginning after the date of the enactment, November 2, 2015. The Fund does not intend to elect to apply these provisions for any tax return filed for partnership taxable years beginning before January 1, 2026.

 (continued)

f. *Risks and Uncertainties*

In the normal course of business, the Fund primarily encounters two significant types of economic risks that impact the valuation of its investments: credit and market. Credit risk is the risk of default that results from a counterparty's inability or unwillingness to make contractually required payments which may impact the value of the Fund's investments. Market risk reflects changes in the value of investments related to changes in interest rates, spreads, or other market factors, including the value of the collateral held by the Portfolio Companies which may impact the value of the Fund's investments. In addition, the Fund may encounter economic risk and uncertainty about the ability to liquidate its investments. The General Partner believes it has appropriately considered these risks in connection with determining the estimated fair value of the Fund's investments.

g. *Distributions and Allocations*

The Partnership Agreements provide for the allocation of net income and distributions to its Partners. Generally, distributions to the Partners will be apportioned among the General Partner, Inverness Limited Partners and Limited Partners as follows, after giving consideration to the special allocations to the Management Limited Partner described in the Partnership Agreements:

a) First, 100% to the Partners, in an amount sufficient to provide:

   i. a return of the Partners' Investment Contributions;

   ii. an amount equal to any Unrealized Loss on an investment, as defined;

   iii. a return of all outstanding Contributions that were utilized to fund the Fund's management fees and organizational and other expenses;

   iv. a preferred return on the amounts described above at a rate of 8% per annum compounded annually (the Preferred Return).

b) Second, 100% to the Special Limited Partner until the Special Limited Partner has received aggregate distributions in an amount equal to 20% of all preferred return distributions made to the other Limited Partners and distributions under this provision.

c) Third, 80% will be distributed to the Limited Partners and 20% to the Special Limited Partner.

The distributions payable to the Special Limited Partner described above are commonly referred to as performance based carried interest distributions and are based on the realized gains upon disposition of an investment.

In accordance with the Partnership Agreements, net income is generally allocated among the Partners in a manner to state each partner's capital account at a balance equal to the amount of distributions that would be made to such partner based upon the Fund's ending capital balance. Certain partners of the Special Limited Partner have exercised their right to utilize the Management Profits Interest (MPI) Election, as further discussed in note 6, to account for certain capital contributions. When such MPI election is made, these partners will be entitled to receive distributions from the Management Limited

Partner to the extent of available profits, or appreciation as defined in the Partnership Agreements, upon the disposition of an investment as determined by the General Partner.

As of June 30, 2025, the determination of the amount of the distributions made to each Partner is dependent on the amount of proceeds that will be received when the remaining investments held as of June 30, 2025 are sold and actual proceeds of escrows receivable are received. Accordingly, the final determination of the amounts of future distributions to be made to each Partner upon the termination of the Fund may vary from the steps satisfied above that have occurred through June 30, 2025. The returns and carried interest that each investor is subject to is determined by activities and costs incurred by the specific Partnership that they have elected to invest through so investor returns across the Partnerships may vary. Specifically, certain Partnerships incur costs that are specific to the Partnership, and their investors share of those costs are not proportional to their share of the Fund's overall commitments. Investors in Fund-C are not subject to distribution provisions that govern the determination of carried interest and MPI distributions to the Special Limited Partners.

h. Net Realized and Unrealized Gains and Losses

Realized gains and losses are recorded upon disposition of investments and calculated as the difference between the proceeds from such dispositions and the investments' cost basis. The Fund records changes in unrealized position on each of its investments equal to the difference between the period-end estimated fair value of the investment and its prior period fair value.

i. Co-Investments

As provided in the Partnership Agreements, the General Partner has discretion to determine if there is a co-investment opportunity in connection with the Fund making an investment in a Portfolio Company. If such co-investment opportunity exists, the General Partner shall follow the provisions of the Partnership Agreements in allocating co-investment opportunities which initially includes considerations for strategic investors, before offering the opportunity to all investors that hold a co-investment right on a pro-rata basis. In connection with the closing of the investment in [redacted], a newly formed co-investment vehicle was formed with an investment of $26.9 million as of June 30, 2025.

As of June 30, 2025, IGI formed the [redacted] Co-Investment Fund, LP and affiliates (the "Co-Invest Fund") to provide capital needed to fund the transactions described below. The Co-Invest Fund is targeting $65 million in capital commitments and has held closings in July and August 2025; the capital aims to fund $50 million of near-term investments, and $15 million will be reserved for future follow-on investments in the respective platforms. The Co-Invest Fund holds investments in three portfolio companies, including: (i) a $10 million investment in IGI-V Cognito Forms, (ii) a $20 million investment in IGI-IV [redacted] (first add-on investment) and (iii) a $20 million investment in IGI-IV [redacted] Medical (first two add-on investments). Cognito Forms, based in Columbia, South Carolina, is a rapidly-growing, SaaS-based provider of low-code / no-code workflow automation solutions. [redacted], based in Brewster, New York, is a leading marketing data and analytics provider. [redacted] Medical, headquartered in St. Paul, Minnesota, is a global manufacturer of single-use surgical products and sterile processing systems for ENT, ophthalmic, and general surgical applications. The Co-Invest Fund is expected to have a final closing and hold the investments outlined above by

(continued)

September 30, 2025. Prior to forming the Co-Invest Fund, IGI offered such co-investment opportunities to existing investors that have co-investment rights.

*j. **Partnership Expenses***

The Partnership Agreements identify the types of costs to be incurred by the Fund which includes costs incurred with the sourcing, evaluation (including environmental evaluation), acquisition, holding, development, management, monitoring and disposition of Investments or prospective Investments, which include travel and other related costs of employees of the Manager and third parties. Such costs are initially advanced by the Manager and subsequently billed and incurred by the Fund as a partnership expense in accordance with the provisions of the Partnership Agreements. The Partnership Agreements also explicitly state that the costs related to unconsummated investments that would have been borne directly or indirectly by a potential co-investor are also to be expensed by the Fund. Lastly, costs related to the research and information services associated with researching, developing and executing on the Fund's investment strategy (which may be performed by members of [redacted] Operating Group LLC (IGOG) as discussed in note 8) are incurred by the Fund in accordance with the terms of the Partnership Agreements.

*k. **Interest Income***

Interest income is recorded when earned, except when collectability cannot be reasonably determined due to the long-term nature of the receivable. In such cases, the income is recorded upon receipt.

(3) Investments

The Fund has invested a significant portion of the portfolio in private placement equity financial instruments that have no readily available market. All of the Fund's investments are in entities that are based in the United States of America.

At June 30, 2025 and December 31, 2024, the Fund held investments in common equity securities that were classified as Level 3 as set forth in the following table based on the nature of General Partner's valuation methodology to estimate the fair value of this investment given unobservable inputs and assumptions utilized in developing these values. Because of the inherent uncertainty of such valuations, the estimated value may differ significantly from the value that would have been used had a ready market for the investment existed.

The following tables present the investments measured at fair value:

Description	June 30, 2025	Fair value measurements at June 30, 2025 using: Quoted prices in markets (Level 1)	Other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Investments	$ 488,727,473	$ -	$ -	$ 488,727,473
Bridge financing advances	2,448,750	-	-	2,448,750
	491,176,223	-	-	491,176,223

Description	December 31, 2024	Fair value measurements at December 31, 2024 using: Quoted prices in markets (Level 1)	Other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Investments	$ 420,217,611	$ -	$ -	$ 420,217,611
Bridge financing advances	7,268,140	-	-	7,268,140
	427,485,751	-	-	427,485,751

The table below sets forth a summary of changes in the Fund's investments measured at fair value using Level 3 inputs:

Balance, January 1, 2024	$ 387,711,912
Purchase of investments	92,950,000
Proceeds from transfer of investment	(76,334,259)
Distributions in-kind	(136,664)
Realized gain from investments	58,495,851
Escrow consideration	(1,260,858)
Unrealized gain on investments	(33,940,231)
Balance, December 31, 2024	$ 427,485,751
Purchase of investments	17,916,661
Accrued investment obligation	15,000,000
Unrealized gain on investments	30,773,812
Balance, June 30, 2025	$ 491,176,224

(continued)

The Fund has invested in the Portfolio Companies described below.

(a) ***[redacted] (d/b/a [redacted])***

On May 1, 2020, the Fund invested $18,044,706 in [redacted] which holds a controlling interest in AM Parent Holdings, LLC ([redacted]), a leading designer and manufacturer of cleaning products and agents for electronics. As discussed in note 6, the Manager has entered into a management agreement with [redacted] for which it will earn a Fee (as defined in note 6) of $1,000,000 for the first year of service and $210,000 annually for its service during the second and third years of service, which resulted in a prepayment of $1,420,000 on May 1, 2020 when the Fund initially invested into this Portfolio Company. After the first year of service, the Fee is subject to increases as [redacted] exceeds certain defined financial performance thresholds. As of June 30, 2025, the Manager earns an effective annual Fee of $285,000. As discussed in notes 6, 7, and 8, [redacted] Operating Group LLC (IGOG) has entered into an operational consulting agreement with [redacted]. IGOG received an advance on the services to be provided under this agreement of $300,000, which was funded at the closing. As of June 30, 2025, the prepayments from the management and IGOG contracts have been fully utilized resulting in balances that [redacted] had due to IGI and IGOG of $0.1 million and $0.1 million, respectively.

On August 18, 2020, [redacted] closed on an acquisition of Teknipure, an emerging leader in the design, manufacture and marketing of specialty cleaning products targeting regulated and contamination-controlled fabrication environments such as cleanroom processing facilities, which was funded from newly originated debt proceeds of [redacted].

(b) ***[redacted] (d/b/a [redacted])***

On June 15, 2020, the Fund invested $20,385,278 in [redacted] which holds a controlling interest in CMD Parent Holdings, LLC (CMD), a provider of high quality custom medical catheter tubing products to the global medical device industry, which was rebranded during March 2021 as [redacted] ([redacted]). In connection with the closing of [redacted] on June 15, 2020, the Fund also provided bridge financing of $14,000,000 which was repaid in full on August 7, 2020. As discussed in note 6, the Manager has entered into a management agreement with [redacted] for which it will earn a Fee (as defined in note 6) of $800,000 for the first year of service and $200,000 annually for its service during the second and third years of service, which resulted in a prepayment of $1,200,000 on June 15, 2020 when the Fund initially invested into this Portfolio Company.

On March 10, 2021, the Fund invested an additional $7,650,086 in [redacted] that was utilized to close on the acquisition of VitalDyne Medical (VitalDyne), a laser cutting, welding, micromachining and finished device manufacturer for coronary vascular, peripheral vascular, neurovascular and structural heart applications.

On December 30, 2021, the Fund invested an additional $24,844,461 in [redacted] that was utilized to close on the acquisition of Modern Catheter Technologies, Inc. (ModernCath), a provider of complex catheter-based delivery systems for a range of endosurgical and interventional applications, with a primary focus on the neurovascular and electrophysiology markets. In connection with the ModernCath add-on acquisition that closed on December 30, 2021, the Manager received an additional prepayment of $1,050,000 and the terms of the agreement were amended to increase the annual

 (continued)

recurring management fee to $525,000 per annum beginning on January 1, 2022. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with [redacted]. In connection with the add-on acquisitions that closed on March 10, 2021 and December 30, 2021, IGOG received additional advances on the services to be provided under this agreement of $150,000 and $500,000, respectively. As of June 30, 2025, the prepayments from the management and IGOG contracts have been fully utilized, resulting in balances that [redacted] had due to IGI and IGOG of $0.5 million and $1.9 million, respectively.

The Fund also provided additional bridge financing of $35,488,671 to [redacted] on December 30, 2021 (the "2021 Bridge Note"). The interest on the bridge financing advance is computed on the basis of the actual number of days elapsed in a 360-day year at a rate equal to 12.5% compounded annually as of the last day of the calendar year and is due on demand, of which $5,155,540 was not subject to any interest. As of June 30, 2025, the Fund has received life-to-date principal repayments on the 2021 Bridge Note of $33,039,921. As of June 30, 2025, the Fund has received interest income payments related to the 2021 Bridge Note of $2,448,750. As of June 30, 2025, the Fund has accrued interest of $770,408 related to the 2021 Bridge Note and is included as a component of other assets in the accompanying combined statement of assets, liabilities and partners' capital.

The Fund also provided additional bridge financing of $2,500,000, $1,250,000, and $1,250,000 to [redacted] on July 23, 2024, October 4, 2024, and December 11, 2024, respectively (collectively, the "2024 Convertible Bridge Notes"). The interest on the 2024 Convertible Bridge Notes is computed on the basis of the actual number of days elapsed in a 365-day year at a rate equal to 17.5% and is due on demand. As of June 30, 2025, the Fund has received life-to-date principal repayments on the 2024 Convertible Bridge Notes of $180,610. As of June 30, 2025, the Fund has not received any interest income payments. As of June 30, 2025, the Fund has accrued interest of $662,834 related to the 2024 Convertible Bridge Notes and is included as a component of other assets in the accompanying combined statement of assets, liabilities and partners' capital. The terms of the bridge financing notes executed during the year ended December 31, 2024 provide for the ability to convert the terms of the note payable into equity securities which conversion into Participating Preferred Units occurred on August 6, 2025 as described below.

As of June 30, 2025, the Fund committed to invest an additional $15 million into [redacted] in connection with restructuring of its balance sheet, which closed on August 6, 2025. The terms of the restructuring include: (i) an amended and restated loan agreement with an $18.3 million forgiveness of the indebtedness principal that was previously outstanding, (ii) the Fund's additional investment into [redacted] aggregating $15 million in connection with the company's issuance of Participating Preferred Units, which provided for a 2x liquidation preference and where such proceeds were utilized to repay a portion of the debt principal, (iii) conversion of a portion of debt principal into $5 million of Participating Preferred Units and (iv) a reset of interest rates and debt covenants. [redacted]'s balance sheet, after this restructuring, includes (i) $32 million of debt principal outstanding bearing interest beginning at 6.0%, compounded quarterly and (ii) $25.8 million invested in 1,383,360 newly issued Participating Preferred Units (1,115,551 held by the Fund) and 565,179 shares of common units (404,576 held by the Fund). The management team believes that this restructuring affords the company greater opportunity to successfully adapt to recent market disruptions associated with the rapid adoption of Pulse Field Ablation ("PFA") technology, which has impacted the company's near-term performance. The Fund has accounted for the $15 million commitment as of June 30, 2025 by recording an additional investment of $15 million into [redacted], as stated in the accompanying combined Statement of Investments, with a corresponding accrued investment obligation on the balance sheet. As a result, as of June 30, 2025, the Fund's valuation of its investment in [redacted] has been impacted.

(c) IGI- EMS, LLC (d/b/a [redacted])

On December 31, 2020, the Fund invested $27,078,373 in [redacted] which holds a controlling interest in EMS Parent Holdings, LLC (EMS), a manufacturer and distributor of lab consumables and equipment for the microscopy, general research, and other ancillary lab research markets. On August 2, 2023, the Fund invested an additional $16,581,657 in EMS that was utilized to close on the acquisition of Azer Scientific, Inc. (Azer), a provider of laboratory consumables and equipment to the life sciences markets for clinical, diagnostic, histology and research applications. As discussed in note 6, the Manager has entered into a management agreement with EMS for which it will earn a Fee (as defined in note 6) of $750,000 for the first year of service and $300,000 annually for its service during the second and third years of service, which resulted in a prepayment of $1,350,000 on December 31, 2020 when the Fund initially invested into this Portfolio Company. In connection with the Azer add-on acquisition that closed on August 2, 2023, the Manager received an additional prepayment of $1,000,000. After the first year of service, the Fee is subject to increases as EMS exceeds certain defined financial performance thresholds. As of June 30, 2025, the Manager earns an effective annual Fee of $399,999. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with EMS. IGOG received an advance on the services to be provided under this agreement of $1,350,000 which was funded at the initial closing. As of June 30, 2025, the prepayment from the IGOG contract had been fully utilized, resulting in a balance that EMS had due to IGOG of $0.4 million.

(d) IGI- Concord, LLC (d/b/a [redacted])

On February 1, 2022, the Fund invested $48,182,030 in [redacted], which holds a controlling interest in Concord Global Holdings, LLC (Concord). Concord offers a broad array of custom financial technology solutions to the specialty loan market, serving the solar, home efficiency and vacation markets. On July 24, 2023, Concord closed on its acquisition of Equiant Financial Services, LLC (Equiant), which was funded from newly originated debt proceeds of Concord. As discussed in note 6, the Manager has entered into a management agreement with Concord for which it will earn a Fee (as defined in note 6) of $1,250,000 for the first year of service and $500,000 annually for its service during the second and third years of service, which resulted in a prepayment of $2,250,000 on February 1, 2022 when the Fund initially invested into this Portfolio Company. In connection with the Equiant add-on acquisition that closed on July 24, 2023, the Manager received an additional prepayment of $500,000 and the terms of the agreement were amended to increase the annual recurring management fee to $700,000 per annum. In addition, the Fee is subject to increases as Concord exceeds certain defined financial performance thresholds. As of June 30, 2025, the Manager earns an effective annual Fee of $1,025,000. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with Concord. IGOG received an advance on the services to be provided under this agreement of $1,500,000, which was funded at the closing.

On July 25, 2022, the Partners approved an amendment to the Partnership Agreements to permit a warehousing arrangement in which the Fund would hold certain investments with the intent to transfer a portion of such investment to the Green Light Fund which held its first closing on March 13, 2023. On March 27, 2023, 50% of the Fund's investment in [redacted] was transferred to the Green Light Fund for cash consideration of $26,303,428 which was determined in accordance with the terms of the warehousing agreement which provided that consideration be determined as cost plus 8% for the period of time that IGI IV warehoused the investment which resulted in the Fund recognizing a realized gain upon the transfer of this portion of the investment of $2,212,413 during the year ended December 31, 2023.

On December 18, 2024, the Fund entered into various agreements to restructure the investment in IGI-Concord, LLC in advance of its disposition, which closed on December 27, 2024. The restructuring occurred to facilitate the sale of Fund-A's interests in Concord Holdco (IGI IV-A), Inc. (the Concord Blocker). The portion of the investment associated with the interests held by the General Partner, the Special Limited Partner (SLP), and the MPI Entity (collectively, the General Partners) that were formerly held through the interests in the Pooling Partnerships were redeemed in a distribution in kind so that the General Partners directly held an interest in Concord after the restructuring (the Redemption). Fund-A has accounted for the Redemption by presenting the distribution in kind as a reduction to the capital accounts of the General Partners with a corresponding reduction to Fund-A's investment in Concord, based on the estimated fair value of those interests at the date of the Redemption. Fund-A is reporting their estimated share of the interest in the escrow and rollover equity consideration that is targeted to be funded at specified future dates, however in accordance with the terms of the Sales Proceeds Equalization Agreement, all consideration associated with the interests held by the Pooling Partnerships prior to the restructuring is subject to the distribution waterfall provisions of the limited partnership agreement, which govern the determination of any potential carried interest distributions. Given that the General Partners hold these interests in the escrow and rollover equity directly, and such activity is not a component of the operations of the combined financial statements presented herein, carried interest distributions to the SLP from the escrow and rollover equity consideration will not be presented as a component of the combined financial statements, however such activity will be disclosed in the footnotes to the financial statements.

On December 27, 2024, the Fund disposed of its investment in Concord for $76,334,259 cash received at closing, $1,260,858 of escrowed proceeds, and a retained rollover equity interest into the buyer's platform (which is valued at $4,991,748 as of the date of closing). Fund-A holds its rollover interest directly in [redacted], while Fund-M, Fund-B and Fund-C hold their rollover interests indirectly through [redacted]. The Fund's rollover equity interest is held through [redacted] LLC, a newly formed investment vehicle. In connection with this disposition, the management agreement between Concord and the Manager was terminated and the Manager received a final payment due of $263,763. The consulting service agreement between Concord and IGOG was also terminated in connection with this disposition and IGOG refunded the unutilized portion of the advance it had received to Concord of $421,113.

(e) [redacted] ***(d/b/a*** [redacted]***)***

On August 30, 2022, the Fund invested $22,241,722 in [redacted], which holds a controlling interest in CAG Parent Holdings, LLC ([redacted]). [redacted] develops and manufactures customized formulations of private-labeled liquid plant nutrition and other specialty products serving the agriculture, and turf and ornamentals markets. As discussed in note 6, the

Manager has entered into a management agreement with [redacted] for which it will earn a Fee of $750,000 for the first year of service and $170,000 annually for its service during the second and third years of service, which resulted in a prepayment of $1,260,000 on August 30, 2022 when the Fund initially invested into this Portfolio Company. After the first year of service, the Fee is subject to increases as [redacted] exceeds certain defined financial performance thresholds. As of June 30, 2025, the Manager earns an effective annual Fee of $220,000. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with [redacted]. IGOG received an advance on the services to be provided under this agreement of $660,000, which was funded at the closing. As of June 30, 2025, the prepayment from the IGOG contract had been fully utilized, resulting in a balance that [redacted] had due to IGOG of $0.2 million.

On March 25, 2024, [redacted] completed the add-on acquisition of BioTek Agronomics which expands the Company's range of private-labeled liquid plant nutrients, nitrogen stabilizers and other specialty products that help deliver key environmental improvements including yield enhancement and soil health. This acquisition was financed by newly originated portfolio company debt proceeds.

On July 25, 2022, the Partners approved an amendment to the Partnership Agreements to permit a warehousing arrangement in which the Fund would hold certain investments with the intent to transfer a portion of such investment to the Green Light Fund. On July 14, 2023, 50% of the Fund's investment in [redacted] was transferred to the Green Light Fund for cash consideration of $11,895,970 which was determined in accordance with the terms of the warehousing agreement which provided that consideration be determined as cost plus 8% for the period of time that IGI IV warehoused the investment which resulted in the Fund recognizing a realized gain upon the transfer of this portion of the investment of $775,109 during the year ended December 31, 2023.

(f) IGI- TP, LLC (d/b/a [redacted])

On January 11, 2023, the Fund invested $35,932,747 in [redacted], which holds a controlling interest in [redacted] Holdings, LLC ([redacted]). [redacted] sells unique, innovative, and premium pet treats and chews that are sourced and manufactured in the United States. As discussed in note 6, the Manager has entered into a management agreement with [redacted] for which it will earn a Fee (as defined in note 6) of $500,000 for the first year of service and $210,000 annually for its service during the second and third years of service, which resulted in a prepayment of $920,000 on January 11, 2023 when the Fund initially invested into this Portfolio Company. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with [redacted]. IGOG received an advance on the services to be provided under this agreement of $700,000, which was funded at the closing.

On March 7, 2025, the Fund invested an additional $7,621,240 in [redacted] in connection with the add-on acquisition of Bosco and Roxy's, an automated, robotic manufacturer of custom decorated pet treats with the ability to deliver at scale. In connection with this add-on acquisition, the Manager received an additional prepayment of $410,000 and the terms of the agreement were amended to increase the annual recurring management fee to $410,000 per annum beginning on March 7, 2025. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with [redacted]. In connection with this add-on acquisition, IGOG received an additional advance on the services to be provided under this agreement of $630,000.

(g) IGI-[redacted], LLC (d/b/a [redacted])

On March 31, 2023, the Fund invested $46,253,837 in [redacted], which holds a controlling interest in [redacted] Global Holdings, LLC ([redacted]). [redacted] is a global manufacturer of branded single-use surgical products and sterile processing systems servicing ENT, Ophthalmic, Gynecological, and Aesthetic end-markets. As discussed in note 6, the Manager has entered into a management agreement with [redacted] for which it will earn a Fee of $1,800,000 for the first year of service and $520,000 annually for its service during the second and third years of service, which resulted in a prepayment of $2,840,000 on March 31, 2023 when the Fund initially invested into this Portfolio Company. After the first year of service, the Fee is subject to increases as [redacted] exceeds certain defined financial performance thresholds. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with [redacted]. IGOG received an advance on the services to be provided under this agreement of $2,235,000, which was funded at the closing.

The Fund also initially provided additional bridge financing of $26,183,333 as of March 31, 2023 to a newly formed co-investment vehicle formed in connection with this investment. During the year ended December 31, 2023, the Fund received bridge financing repayments of $22,891,863, which included principal repayments of $22,450,000 and interest income of $441,863. During the year ended December 31, 2024, the Fund received final bridge repayments of $4,019,726, which included principal repayments of $3,733,333 and interest income of $286,393.

On June 30, 2025, [redacted] Medical consummated the simultaneous acquisitions of two add-on investments, Grace Medical and Hurricane Medical. These transformative acquisitions accelerate [redacted] Medical's strategic vision of building a vertically integrated manufacturer of physician-preferred, consumable surgical products, specializing in Ear, Nose and Throat ("ENT") and Ophthalmic procedures, as well as sterile processing systems. In connection with these acquisitions, the Fund invested an additional $7,037,524 in [redacted]. In connection with these add-on acquisitions, the Manager received an additional prepayment of $2,400,000 and the terms of the management agreement were amended to increase the annual recurring management fee to $1,200,000 per annum as of June 30, 2025. Additionally, IGOG received an additional prepayment of $600,000.

(h) [redacted] (d/b/a [redacted])

On January 26, 2024 the Fund invested $8,774,892 in [redacted] which holds an interest in My Parent Holdings, LLC ([redacted]). The Fund holds 12% indirect ownership interest in [redacted]. [redacted] is a leading seed treatment provider offering growers an integrated seed treatment, equipment, and agronomic support solution to ensure crop protection and improve yield. As discussed in note 6, the Manager has entered into a management agreement with [redacted] for which it earned a Fee of $737,500 for the first year of service and annual Fees of $295,000 thereafter. The Manager received a prepayment of $737,500 on January 26, 2024, when the Fund initially invested into this Portfolio Company. After the first year of service, the Fee is subject to increases as [redacted] exceeds certain defined financial performance thresholds. As of June 30, 2025, the Manager earns an effective annual Fee of $445,000. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with [redacted]. IGOG received an advance on the services to be provided under this agreement of $372,500, which was funded at the closing. As of June 30, 2025, the prepayments from the management contract has been fully utilized, resulting in balances that [redacted] had due to IGI of $0.2 million.

On February 6, 2025, [redacted] closed on an add-on acquisition of ROI Biologics, a leading provider of agronomic technology and plant and soil health formulations, which was funded by newly originated debt proceeds of [redacted].

The Green Light Fund and a co-investment entity also hold an aggregate investment in [redacted] of $26,324,677.

(i) **[redacted] *(d/b/a* [redacted]*)***

On March 8, 2024 the Fund invested $38,477,866 in [redacted] which holds a controlling interest in IG BH Holdings, LLC ([redacted]). The $38,477,866 investment in [redacted] initially comprised of $32,000,000 of permanent equity and $6,477,866 of temporary bridge financing. [redacted] is a leading provider of benefits technology and voluntary benefits for employers and employees worldwide. On August 13, 2024, the Fund invested an additional $3,571,002 in [redacted] that was utilized to close on the acquisition of Abenity, provider of private perks programs, offering employers, alumni groups and associations access to thousands of perks, discounts and corporate rates on a wide range of items, including movie and theme park tickets, car rentals and hotel stays. In connection with the Abenity add-on acquisition, the $6,477,866 bridge financing advance was converted to permanent equity, bringing the Fund's total investment to $42,048,868.

On February 25, 2025 the Fund provided bridge financing of $1,000,000 to [redacted]. The interest on the bridge financing advance is computed on the basis of the actual number of days elapsed in a 360-day year at a rate equal to 15.0% compounded annually as of the last day of the calendar year and is due on demand. The advance was originated with the intent for repayment within 12 months.

As discussed in note 6, the Manager has entered into a management agreement with [redacted] for which it earned a Fee of $675,500 for the first year of service and $225,000 annually. The Manager received a prepayment of $1,350,000 on March 8, 2024, when the Fund initially invested into this Portfolio Company. After the first year of service, the Fee is subject to increases as [redacted] exceeds certain defined financial performance thresholds. In connection with the Abenity add-on acquisition that closed on August 13, 2024, the Manager received an additional prepayment of $480,000 and the terms of the agreement were amended to increase the annual recurring management fee to $425,000 per annum for services provided after the first year of service. As of June 30, 2025, the Manager earns an effective annual Fee of $500,000. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with [redacted]. IGOG received an advance on the services to be provided under this agreement of $1,250,000, which was funded at the initial investment. In connection with the Abenity add-on acquisition that closed on August 13, 2024, IGOG received an additional advance of $240,000.

(j) **[redacted] *(d/b/a* [redacted]*)***

On October 30, 2024 the Fund invested $37,306,851 in [redacted] which holds an interest in Datum Holdings, LLC ([redacted]). [redacted] is a leading marketing data and analytics provider, pioneering solutions that enable a data-driven advertising ecosystem. As discussed in note 6, the Manager has entered into a management agreement with [redacted] for which it earned a Fee of $555,000 for the first year of service and annual Fees of $185,000 thereafter (subsequent to adjustment as disclosed in note 6), which resulted in a prepayment of $925,000 on October 30, 2024, when the Fund initially invested into this Portfolio Company. As discussed in notes 6, 7, and 8, IGOG has entered into an operational consulting agreement with [redacted]. IGOG received an advance on the services to be provided under this agreement of $1,500,000, which was funded at the closing.

On June 23, 2025, the Fund invested an additional $3,257,897 in [redacted] in connection with the add-on acquisition of Analytics IQ, an innovator in predictive analytics and people-based marketing data. In connection with this add-on acquisition, the terms of the management agreement were amended to increase the annual recurring management fee to $725,000.

(4) Line of Credit

As of June 30, 2025 and December 31, 2024, the Fund had a line of credit with a capacity of $50,000,000 and $65,000,000, respectively, with a maturity date of March 13, 2026. The Fund’s line of credit capacity of $50,000,000 as of June 30, 2025 was granted as a short term increase in capacity that ended on August 10, 2025 when capacity reverted to $35,000,000. As of June 30, 2025, the Fund’s facility was fully drawn at capacity of $50,000,000 and the outstanding borrowings had been reduced to $18.4 million as of August 11, 2025. Borrowings accrue interest at one-month adjusted SOFR + 2.50% (6.94% at June 30, 2025). In addition, an unused capacity fee equal to 0.25% of the unused capacity is incurred and is included in interest expense on the statement of operations. Under the terms of the line of credit agreement, the Fund has accepted joint and several liability for all the borrowers’ obligations under the line of credit. The Fund's line of credit is secured by remaining available capital.

Borrowings on the Fund’s credit facility allow for the deferral of capital calls and provide a form of leverage that can have the effect of amplifying a Fund’s reported net internal rate of return (IRR), particularly in the early years of a Fund’s investment cycle. Such borrowings can also accelerate the date upon which a Fund’s preferred return will be achieved for purposes of determining when the General Partner (or affiliates which earn carried interest) are entitled to begin receiving carried interest payments on distributions from a Fund. In accordance with the terms of the applicable Limited Partnership Agreements, interest payments and other fees and expenses incurred related to such borrowings are partnership expenses and such expenses will decrease a Fund’s net return over time.

(5) Partners’ Capital

The Fund’s capital commitments as of June 30, 2025 include commitments from Limited Partners and commitments from the General Partner and Inverness Limited Partners. The Fund has received total commitments of $414,720,000 comprised of $411,000,000 of commitments from its Limited Partners and $3,720,000 of commitments from the General Partners and its affiliates. In accordance with the Partnership Agreements, the Fund has the ability to “recall” certain Partners’ capital contributions made to the Fund, which are subsequently returned within a specified period, effectively increasing the Fund’s available capital. The Capital Call Notice dated June 14, 2023, the Net Notice dated September 28, 2023, and the Net Notice dated January 24, 2025, identified an aggregate of $85,614,576 of activity that was classified as a recallable distribution in accordance with provision 3.4(b) of the Partnership Agreements which increased the Fund’s total available capital. The Fund has received cumulative contributions of $439,767,205 as of June 30, 2025

(106.05% of total available capital), which has resulted in the Fund's remaining uncalled capital of $60,513,318.

(6) Management and Related Agreements

During the Investment Period, the Fund incurs a management fee (the Management Fee) equal to 2% per annum of the Limited Partners' commitments. Thereafter, the Management Fee is calculated as 2% per annum of Actively Invested Capital, as defined. Further, during the Investment Period, the Manager and its affiliates have the option to elect to reduce the amount of the Management Fee by the MPI Election, as defined, in exchange for a profits interest in the Fund that provides for the ability to receive future distributions from the Fund to the extent there are available profits from investments, as defined. Members of the Inverness Limited Partners exercised the option under the MPI Election, which reduced the Fund's annual Management Fee by $250,400 and $226,250 for the years ended and December 31, 2025 and 2024, respectively.

The Manager is entitled to be compensated for certain additional services it provides to Portfolio Companies, which include "transaction fees, break-up fees, commitment fees, termination fees, Portfolio Company management fees or monitoring fees, directors' fees, investment banking fees, and similar fees," in accordance with the terms of the Partnership Agreements (the Fees). In accordance with the Partnership Agreements, the portion of a Fee received by the Manager equal to 80% of the Fund's ownership interest in the Portfolio Company will reduce the amount of the Management Fee (the Fee Reduction as defined in the Partnership Agreements) that the Fund will remit to the Manager on the date of, or in the periods following, the payment of such Fee as such Fee is earned.

The Manager will typically be compensated for the management services it provides to Portfolio Companies during the initial year of ownership at a rate that is in excess of the annual recurring management fee that it receives for subsequent periods to compensate for the efforts associated with activities required in the initial year. The Manager also typically receives a prepayment of its management services fee equal to the Fee expected to be earned over the initial two to four years of the forecasted service period. The terms of the management agreement provide that the Manager is entitled to increases in its Fees to the extent defined increases in EBITDA are achieved. In addition, the Manager may amend the terms of its management agreements with its Portfolio Companies, including the amount of the annual recurring Fee, at the time of an add-on acquisition, recapitalization or other significant event. To the extent that a Portfolio Company has advanced payment for future periods for which services will not be provided, and the management services agreement is in the process of being terminated in connection with the disposition of an investment, the Manager will typically return the unutilized unearned portion of any prepayment to the Portfolio Company. Based on the terms of the management agreements as of June 30, 2025, the Fund accounts for annual Fee Reductions of approximately $198,000, $300,000, $250,000, $66,000, $218,000, $305,000, $336,000, $44,000 and $530,000 relating to annual Fees earned from [redacted], [redacted], EMS, [redacted], [redacted], [redacted], Benefit Hub, [redacted] and [redacted], respectively. As of December 31, 2024, the Fund accounted for annual Fee Reductions of approximately $198,000, $300,000, $250,000, $331,000, $58,000, $108,000, $305,000, $453,000, $73,000 and $405,000 relating to annual Fees earned from [redacted], [redacted], EMS, Concord, [redacted], [redacted], [redacted], Benefit Hub, [redacted] and [redacted], respectively. The Fund accounts for each Fee Reduction over the period of time in which the Manager earns the Fee.

In accordance with the Partnership Agreements, services of Operating Executives to the Portfolio Companies, which include "industry executives, experts, and staff who provide operational consulting and other specialized advisory services to the Portfolio Companies, the Fund, and other entities, directly or indirectly through the Manager or an affiliate of the Manager to streamline billings and facilitate the Manager's strategic arrangements with its network of Operating Executives" shall be billed to the Portfolio Companies or the Fund as applicable. Such costs do not yield a Fee Reduction provided that such fees are earned in accordance with the Partnership Agreements that indicate, "no substantial net income shall be generated for the Manager or any affiliate thereof through the services provided by such Operating Executives to the Portfolio Companies or the Fund."

(7) Related Parties

Based near Philadelphia, Pennsylvania, the Manager and its affiliates ([redacted]) was founded in 1996 by Kenneth A. Graham. Prior to the formation of [redacted], Kenneth A. Graham served as Senior Vice President of Graham Packaging, which is one of the legacy businesses founded by entrepreneur Donald C. Graham, the father of Kenneth A. Graham. Graham Packaging and other predecessor entities that share in the common legacy of entrepreneur Donald C. Graham's industrial success were then commonly referred to as "The Graham Companies" or "The Graham Group." Today, the companies associated with The Graham Group has broadened and the term "The Graham Group" is now used to refer to an alliance of independent operating businesses, investment firms and philanthropic entities, which all share in the common legacy of the entrepreneur Donald C. Graham, and among which include [redacted] and the funds it manages. Kenneth A. Graham directly and/or indirectly holds interests in the General Partner and the Manager. Trusts that have been set up for the benefit of Kenneth A. Graham's descendants also hold a minority economic interest in certain of the general partner entities. Kenneth A. Graham is also a trustee and the primary beneficiary of certain trusts that hold (directly or indirectly through other entities) limited partnership interests in the Fund (representing approximately 2.7% of total commitments) in addition to investing in other funds which [redacted] manages. He does not have dispositive power over any such trust during his lifetime.

The General Partner and the trust of Kenneth A. Graham which hold limited partnership interests in the Fund do not incur Management Fees. Certain employees of the Manager invest through the General Partner and its affiliates and also hold ownership interests in IGI I Annex Fund, IGI Fund II, IGI Fund III, IGI Fund V and the Green Light Fund.

Other entities in The Graham Group alliance and their affiliates (Graham Investors) have limited partnership interests in the Fund (representing approximately 4.8% of total Fund commitments) and such investors incur management fee and carried interest distribution terms consistent with all other Limited Partner investments in the Fund. In addition, Graham Investors also have investments in IGI I Annex Fund, IGI Fund II, IGI Fund III, IGI Fund V and the Green Light Fund. Graham Investors are not controlled by the General Partner and they are not affiliates of the Fund. Graham Investors manage pools of investor capital independent from the entities that the Manager has been engaged as an investment adviser.

The terms of the agreements the Manager has entered into with the Fund and the Portfolio Companies permit the Manager to act as an agent in connection with advancing payment on the Fund's behalf, with subsequent reimbursement to the Manager. Costs related to Portfolio Company activities, including travel costs of the

Manager's employees incurred in connection with these Portfolio Company activities, are initially paid by the Manager and subsequently charged to and expensed by the Portfolio Companies.

The Manager may also be involved in other activities, which are less frequent, which require the Manager to advance payment on behalf of an affiliate and seek reimbursement in a subsequent period. Such activities include (i) advanced payment for legal and other services provided by a third party to a Portfolio Company, (ii) engaging third party service providers in the preparation for an investment for which reimbursement is typically received at closing of the initial investment into the Portfolio Company.

As provided for in the Partnership Agreements, the Fund may engage in bridge financing for affiliates in connection with the closing of an investment, which primarily relate to the formation of co-investment vehicles, for which the Fund may earn interest on such advances. In connection with the closing of the investment in [redacted] on March 31, 2023, the Fund provided bridge financing of $26,183,333 to the [redacted] co-investment vehicle. In connection with the repayment of $22,450,000 of this bridge advance during the year ended December 31, 2023, the Fund received total proceeds equal to cost plus 8% which resulted in a realized gain of $441,863. During the year ended December 31, 2024, the remaining advance was repaid, which resulted in a realized gain of $286,394. As of June 30, 2025, the Fund had bridge advances outstanding of $48,520,014 of which approximately $9 million was still outstanding as of August 11, 2025 and such balance was forecasted to be $1 million as of September 30, 2025.

(8) Operational Consultants

In accordance with the Partnership Agreements (and discussed in note 7), the Manager or its affiliates, including the Manager's wholly owned operations consulting subsidiary, IGOG and other operating companies and executives may be engaged to provide services to Portfolio Companies. IGOG is an operational consulting entity formed to assist the Manager to better coordinate and oversee the operations consulting services, including those related to ESG and impact measurement and reporting, that are provided by IGOG operations executives, various external operations executives and outside firms (collectively, Operating Executives) directly to Portfolio Companies of the Fund and at times to the Fund directly. In accordance with the Partnership Agreements, IGOG will bill for the services provided based upon at or below market rates charged by unaffiliated service providers with comparable expertise and experience. Such activities include (i) Senior Operating Partners that are typically former private equity backed CEOs with successful exit experience that serve as Chairman of the Board and provide oversight on a recurring monthly basis, (ii) employment of full time functional Operating Partners to focus on assisting Portfolio Companies in a number of strategic objectives ("Internal Operating Partners") and operational consulting services associated with developing and implementing sustainability policies, as well as, (iii) third party consultants typically engaged on a limited scope defined project basis over shorter periods of time ("External Operating Partners"). Senior Operating Partners and, Internal and External Operating Partners may receive options or profits interest grants in Portfolio Companies, either directly or through a pooled investment entity managed by an affiliate of [redacted], which are provided to align interests to ensure IGOG is pursuing strategic objectives that are intended to result in value creation for all stakeholders in the Portfolio Company including the Fund. Recipients of these grants are entitled to receive a portion of a Portfolio Company's equity proceeds, which typically occurs when the Fund disposes of an investment. These grants also contain performance metrics or liquidity provisions correlating with increases in portfolio company value to the extent a grant is forfeited prior the Fund's disposition of the investment. For the avoidance of doubt, the proceeds received from these grants are not subject to Fee Reductions. The grant of these interests may have a dilutive impact on the Fund's investment however these grants are intended to generate value in the Fund's investment that would be incremental to the return the Fund would receive without such involvement.

The team of IGOG Internal Operating Partners may change from time to time as an employee of the Manager may become an employee of IGOG or an IGOG employee may become an employee of the Manager. The Portfolio Companies, and sometimes the Fund itself, may engage an External Operating Partner employed by companies associated with the Graham Investors. As disclosed in note 7, the Graham Investors manage separate pools of capital and their operations are separate and distinct from [redacted] and the investment funds it manages.

Activities between IGOG and the Fund's Portfolio Companies during the period ended June 30, 2025, included $121,466, $391,722, $332,891, $2,655, $63,723, $121,048, $168,361, $138,336, $149,198, and $276,386 of consulting services provided to [redacted], [redacted], EMS, Concord, [redacted], [redacted], [redacted], Benefit Hub, [redacted], and [redacted], respectively. For the year ended December 31, 2024 activities between IGOG and the Fund's Portfolio Companies included $250,640, $625,235, $773,273, $449,592, $205,793, $285,373, $457,890, $194,534, $635,815, and $151,350 of consulting services provided to [redacted], [redacted], EMS, Concord, [redacted], [redacted], [redacted], Benefit Hub, [redacted], and [redacted], respectively.

(9) Guarantees

In connection with the investment in [redacted], the Fund entered into an equity commitment to fund an additional $1,815,815 into [redacted] if such funds were needed to satisfy any contingent consideration earn-out obligation that was included in the terms of the Acquisition Agreement. The determination of that obligation was dependent upon whether the Company exceeded certain defined financial performance thresholds for the fiscal year ended June 30, 2021. The parties disagreed whether such financial thresholds were met under the Acquisition Agreement which was resolved in August 2025 resulting in [redacted] remitting such consideration to the Seller without any additional investment from the Fund under the terms of the guaranty.

During the year ended December 31, 2024, the Fund entered into a guaranty agreement to fund up to an additional $4,000,000 equity contribution into [redacted] if such funds were needed to satisfy [redacted]'s debt covenants as described in [redacted]'s Credit Agreement. Pursuant to accounting guidance, a liability would be recorded in the financial statements for the estimated fair value of the guarantee. As of June 30, 2025, [redacted] is in compliance with its liquidity requirements; therefore, the General Partner has assessed the likelihood of having to perform under the guarantee as remote, therefore the fair value is de minimus.

In connection with an amendment of [redacted]'s debt agreement, the Fund executed a $2,000,000 guaranty that would not be triggered during the period that [redacted] maintained compliance with specified covenants. Additionally, as discussed in note 3, the Fund executed a $1,000,000 bridge financing advance to [redacted]. The General Partner believes the likelihood of funding on the guaranty is de minimus.
