Note 1 – Organization:

██████████ (the “Company”) was formed on June 2, 2025, as a Delaware limited liability company and commenced operations on June 12, 2025. The primary objective of the Company is to make direct or indirect investments into infrastructure assets and companies.

The Company entered into an Amended and Restated Operating Agreement dated June 10, 2025 (as it may be further amended or restated from time to time thereafter, the “Operating Agreement”) between ██████████ Holdings, LP (“Operator”), a Delaware limited partnership and Golden Lockridge, LLC (“Investor”), a Delaware limited liability company, together the “Members” of the Company. The Operator of the Company is designated as the Company’s Manager to provide portfolio management and administrative services pursuant to an Advisor Management Agreement dated June 10, 2025 (as amended or restated from time to time, the “Management Agreement”). Subject to the terms of the Management Agreement, the Operator has discretionary authority to make decisions subject to certain Management Committee approvals with respect to the investment of the Company and to manage the operations of the company.

As of June 30, 2025, the Investor of the Company committed total capital of up to \$300,000 to pursue, acquire or fund Portfolio Investments, of which \$270,450, or approximately 90.2% had been drawn. The Investor also agreed to fund up to an additional 10%, or \$30,000, to fund expenses, of which \$473 had been funded at June 30, 2025. The Operator committed total capital of \$1,508, of which \$1,359, or approximately 90.2% of committed capital, had been drawn. The Operator also agreed to fund an additional 10%, or \$151 for expenses, of which \$2 had been funded at June 30, 2025. The Operator, as Manager, may request the Members to make additional capital contributions in accordance with the terms of the Operating Agreement. As approved by the Manager and Management Committee, additional capital contributions will be provided by the Members in proportion to their respective interest percentages.

The term of the Company shall continue until the earlier of: (a) ten years from the date that the Company was formed, subject to an unlimited number of five-year extensions each exercised by unanimous approval; and (b) when the Company is dissolved pursuant to the Operating Agreement.

Note 2 – Commitments and Contingencies:

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. However, based on experience, the Company expects the risk of loss to be remote.

The Company may be a party to certain credit agreements, providing for the issuance of letters of credit and revolving loans, which may require the Company to extend additional loans to investee companies. The Company uses the same investment criteria in making these unrecorded commitments as it does for investments, which are included in the statement of assets and liabilities. The unfunded liability associated with these credit agreements is equal to the amount by which the contractual loan commitment exceeds the sum of the amount of funded debt and cash held in escrow, if any. As of June 30, 2025, the Company had no outstanding debt commitments.

As of June 30, 2025, the Company had no potential unfunded equity investment commitments.
