Sorry, ran a spell check and came back with two more.

(formatting) – Correct the spelling of “escrow” on the SCF. It’s currently “escow”

- (formatting) – should the highlighted be “agronomics”?

Thanks,

Hi Paul,

Just two additional comments.

- (accounting) – Can you change “Decrease in tax withholding” to “Increase in tax withholding” on the SCF?
- (formatting) – The alignment still looks off for the date in the SCF header in the pdf, but it’s correct in the word doc.

Thanks,

Hi,

The updated GLF are saved out for the attached comments. There are two open items I will go back to IG on the FS when we send over the updated FS.

1. No contributions for SLP – This is correct. We do not have any contributions for the SLP. We have the same contributions as Q1
2. Why is carry decreasing but MPI is increasing. This is due to small unrealized gain causing MPI to increase but it is offset by expenses so when the NAV is ran through the waterfall, the carry is decreased by this. There was more expenses this quarter than unrealized gain.
